

Grace Laplace

Insurance Risk Reduction Administrator

Grace joined Latter & Blum Property Management in 2003 as Insurance Risk Reduction Administrator. A licensed property, casualty, life and health insurance agent with 25 years' experience in the insurance industry, Grace brings a tremendous depth of experience to her position.

As an Insurance Risk Reduction Administrator, Grace is the liaison between property managers, property owners and outside vendors on all insurance-related matters. Property owners can rest assured that their properties are adequately insured with policies tailored to meet each property's specific requirements.

Grace also works with both property managers and owners to identify and eliminate risks that can contribute to higher premiums, potential employee or tenant injuries and possible lawsuits. Lower risks at properties may reduce claims frequency, policy premiums, and overall liability exposure for the owner.

Her experience with both investment properties and the insurance industry has been extremely beneficial to our owners and has lowered the liability of all parties involved.
